Priti Jain

Full Stack Developer

[linkedin.com/in/pritiJain](https://www.linkedin.com/in/pritiJain)

KEY SKILLS

- HTML & CSS
- ReactJS
- SpringBoot
- .Net Core
- JavaScript
- Java
- C++
- C#
- TypeScript
- MS SQL Server
- RESTful APIs
- Azure DevOps
- Docker
- Agile Development
- Object Oriented Programming
- Data Structures & Algorithms

EXPERIENCE

Software Engineer

Jul 2023 – Present

NAV Fund Administration Group

Jaipur

- Developed CRS dashboard using ReactJS, Highcharts.js and Web APIs which showcased organization-level statistics and provided a comprehensive view of overall business data. Also delivered major new features to end users ahead of schedule.
- Transformed CRS legacy desktop application to a React web application using reusable functional components, advanced hooks, redux toolkit and scalable APIs to establish a modular and maintainable codebase. Additionally, emphasized comprehensive testing, efficient state management and performance optimization.
- Developed Window services that efficiently retrieved data from RabbitMQ publisher, execute data manipulation, implement business login, and update database tables.
- Worked on building the organization's new website and developed high- performance, scalable web pages.
Link - <https://www.navfundservices.com/>
- Enhanced data accessibility by creating error-free RESTful APIs, improving application functionality.
- Implemented database changes and optimization using SQL, improving data access efficiency, and maintaining data integrity in SQL server databases managed through SSMS.
- Troubleshooting and resolving application-related issues, debugging, and optimizing code for optimal performance, and ensuring smooth functioning of developed applications.
- Skillfully identifying, prioritizing, and executing tasks throughout the software development lifecycle.

PROJECTS

LOGIN MANAGEMENT MODULE – Consolidated multiple smaller modules into a single, unified module for managing permissions and funds.

- Simplified and unified multiple role-based permissions into a single solution.
- Integrated all business information for clients and users, allowing seamless assignment and management of permissions for accessing and assigning reports and funds."
- Created intuitive UI and Implemented APIs for data retrieval.
- **Skills:** React JS, .NET Framework, SQL Server.

ANNOUNCEMENT SYSTEM – A dynamic notification system enabling administrators to broadcast announcements seamlessly across all client modules.

- Created a window service to generate, and send announcement to eligible investor with data validation.
- Created UI of investor's screen to display announcements and details.
- **Skills:** React JS, .NET Framework, SQL Server, RabbitMQ.

COMFY HOUSE

- Developed a furniture shopping website allowing users to browse various furniture items and view detailed specifications.
- Enabled users to create and manage their own shopping cart for a seamless experience
- **Skills:** HTML, CSS, JavaScript.

EDUCATION

B.E., Electronics and Communication Engineering, MBM Engineering College
Higher Secondary, Ascent Internation School

8.3/10 CGPA | Jul 2019 – July 2023
86.20 % | Apr 2017 – Mar 2018

EXTRA-CURRICULARS

- **Winner** of the MBM Code Hackathon 2022 conducted in MBM Engineering College, Jodhpur.
- **Led** knowledge transfer (KT) sessions within the team to share expertise and support project continuity.
- Coordinated a Team of 50 freshers to design various artworks like posters and models throughout the year.
- Solved 700+ coding problems on platforms like [leetcode](https://leetcode.com/), GFG etc.
- **Team Captain**, Girls Basketball Team, [MBM Engineering College] (2020-2023).
